Step 1 - Poster Frames

- 1 *Poster Frames have a stitched in clear PVC Sleeves*
- 2 *Poster frames have a metal insert, which strengthens, and gives a very long usage*
- 3 *Poster frames, have a protruding rods for simple insertion to the wall bracket*

Step 2 - Wall Bracket

- 1 *Wall bracket is a single bracket that has pre-drilled holes for attaching to the wall*
- 2 *Wall bracket has 10x holes on the top & bottom for inserting the poster frames*

Step 3 - Safety First

- 1 *Before starting - check for any internal Electric cables & Water pipes*

Step 4 - Fitting

- 1 *Gather 1x small spirit level & 1x pencil*
- 2 *Hold the wall bracket to the wall, check its 100% level (spirit level)*
- 3 *Once 100% level, mark the retaining hole areas, with the pencil*
- 4 *Remove bracket from the wall*
- 5 *Gather 1x drill & drill the holes to the depth of the supplied raw plugs*
- 6 *Now insert the raw plugs*
- 7 *Now using the screws supplied, secure the wall bracket to the wall*
- 8 *Now fill each frame with 2x documents*
- 9 *Now simply insert each frame into the wall bracket...*
- 10 *This is done by a simple lift up and dropping action*
