

Ceiling Media Mounts (x2)

Single Media Screen Mount

Double Media Screen Mount

Single Media Screen Mount

Designed for supporting 1x Media Screen, normally facing outwards from your Estate Agent Window
Perfect screen is a 'High Brightness Screen' as this overcomes daylight and direct sunlight

Double Media Screen Mount

Designed for supporting 2x Media Screens, facing inwards & outwards from your Estate Agent Window
1x 'High Brightness Screen' facing outwards (overcoming daylight and direct sunlight)
1x 'Digital Screen' facing inwards (much more cost-effective as direct sunlight is not a concern)

Fitting:

- Step 1 Suitable for most 32"-70" screens + Maximum VESA pattern: 600x400mm + Height adjustable 560mm to 3110mm
Ceiling mount has a Tilting range of -25° to 0° - thus overcoming any angled ceiling
- Step 2 Decide on the ceiling location also, taking into account the actual width of your media screen
Now secure the ceiling bracket to your ceiling - remember - ALL the weight is supported on the ceiling area!
- Step 3 Decide on the wanted finish height of your finished display - now set the pole to that wanted height
- Step 4 Secure screen to the Vesa Media Mount, repeat for 2nd screen if you have a double mount
- Step 5 Plug into a power supply in the ceiling area then, secure all cable(s) to the ceiling pole with a WinZip tie's
- Step 6 Populate your 1 or 2 USB(s) - insert and play - or - connect ethernet cables and feed from a office computer / laptop
- Step 7 Tip = USB(s) maybe a wiser decision....thus avoiding computer use or even possible computer failure
