Each Bracket is = 400mm

Once assembled - Displays 20x Posters

Step 1 - Ex-Showroom:

- 1 *PVC Sleeves are ex-showroom used so, may have marks upon them (610mm x 455mm)*
- 2 *If brand new PVC Sleeves are wanted - see our other listing = **Anti Gare Sheets***

Step 2 - Wall Brackets

- 1 *Product is secured to a wall using 2x Black Metal Angle Brackets*
- 2 *Brackets, each have 2x Pre-drilled holes (to wall mount them)*
- 3 *Option 1 - 5x Frame Holder Brackets (180mm) designed to hold 5x Frames*
- 4 *Option 2 - 10x Frame Holder Brackets (400mm) designed to hold 10x Frames*

Step 3 - Fitting the Wall Brackets

- 1 *Before starting - check for any internal Electric cables & Water pipes*
- 2 *Secure the bottom bracket by drilling, adding raw plugs, adding screws*
- 3 *Now insert the first frame into the bottom bracket 1st hole*
- 4 *Now measure the distance to the require top bracket*
- 5 *Now secure the top wall bracket into place*

Step 4 - Posters

- 1 *Now as the frames are double-sided-usage (Insert 2x Posters in each frame)
Posters are loaded into the frame from the top section*
- 2 *Now insert the 1st (loaded frame) into the 1st holes of each wall bracket (top & bottom)
Insertion is a simple = lift-up-and-drop-down-action*
- 3 *Now repeat the process for each additional ordered frame*
- 4 *Future changes = just remove each frame and swop out your posters*
