Still not sure which is best for you?

If you have ever looked at rival Estate Agent LED's and wondered why their Property Documents are 'Much Brighter' than yours....

The MAIN REASON IS - They print onto = Backlit Gloss-on-Matt (as more light penetrates through the film, creating far better results!)

Still need to ensure your printer can print on Film?

That's easy, just order our A4 Sample Pack - then print on all versions before ordering a main pack

LED Backlit Paper - and - LED Backlit Film
