Straight

A4 + A2 + A1 + A0

20" x 30"

30" x 40"

(Landscape or Portrait)

Supplied

LED Panel in the ordered size
1x Power Transformer

Fitting Instructions

- 1 Having decided where the light panel is to be fitted - Hold it up to the wall and mark the 4 internal hole positions, with a pencil
- 2 Now drill the 4x holes and add 1x raw plug, within each drilled hole
- 3 **(Pro Fitting)** - If planning to have a hidden power supply, drill a further hole to bring the power cable into the rear section of the Panel
- 4 **(Standard Fitting)** - Simply create a channel to your outlet
- 5 Now insert your print, and add the protective cover
- 6 Once all completed, now turn on the power supply, to reveal a fully illuminated print

Graphic Prints

- 1 The majority of Estate Agents have access to a A3 Colour Printer
Just ensure you print on either - Back-Lit Paper - or - Back-Lit Film (for Pro-Looking Graphic Prints)
- 2 **If you require Graphic Prints in a larger size (A2 + A1 + A0)** - Please refer to our **'Pro Printing Service'**
