

Wallpaper Map - Details

Once completed - email to = info@estateagentsupplies.co.uk

Map Information Sheet - Wallpaper

Once Completed

Email to - info@estateagentsupplies.co.uk

Step 3 = Measurement of your wall?

Width =

mm

Height =

mm

Step 4 = Now tick the type of map wanted

Street Map =

Bird Eye Map =

Regional Map =

Step 5 = Please visit Google Maps then, add your town or postcode then, zoom in / out, to gain your design wants and needs

Step 6 - Now we need the following - The names of locations N+S+E+W

North - Village / Town is called

South - Village / Town is called

East - Village / Town is called

West - Village / Town is called

Example - Chester Map - CH1 4AT

Top Reveals - **Chester Zoo**

Bottom Reveals - **Waverton**

Left Reveals - **Sealand**

Right Reveals - **Stamford Bridge**

Google Maps - Zoom function

Tip 1:

Just remember, the more you zoom out
The, less street names will appear

Tip 2:

The more you zoom in
The, less area will be covered

Finer Details

Details:

1. **Practical & Effective** - "Street" + 'Birds Eye' + "Regional" = Wallpaper Maps
2. Wallpaper Maps are designed as 'Pasting Maps', same as you may have at home
3. Pasting Maps, are very easy to apply if you are DIY Confident
4. Pasting Maps, if not a DIYer, always employ a local decorator

More Details:

1. **Designing Tips** are shown below
2. **Colours** are shown on the next page

Designing Tips:

1. Assuming you are utilise Google Maps.....
2. When designing using Google Maps, you can simply zoom in and out
3. However; the more you zoom in - the more street names will actually appear
4. But, the more you zoom out - street names will disappear and road names will appear etc
5. Hence be careful, when you are designing

Recommended:

We recommend adding an extra 5cm to both width and height to ensure you achieve full coverage, as this also allows for your walls to be slightly out of level
Any excess can be easily trimmed during installation.

5. Hence be careful, when you are designing

Regional County Maps:

1. When designing using Google Maps, you can simply zoom in and out
2. However; the more you zoom in - the of a 'County' will appear
3. But, the more you zoom out - '1x Country' maybe replaced with 2 or 3x Counties
4. Hence be careful, when you are designing

Fitting to Walls - Example

1. **Prep the wall**, ensuring its nice and smooth
2. If working left to right, apply the first roll to the wall
3. Repeat as you are going left to right
4. Now you will need to trim the waste-

Illuminating the Wallpaper Map:

1. Once completed, adding ceiling lights will highlight the map
2. Once completed, adding Wall lights will highlight the map

Regional County Maps:
