

Etched - LED Framed Panels

Explanation:

1. If you are looking for 'Branded' LED Pockets then, this page is for you
2. A3L LEDs (2x Examples) = **"Black Frames"** & **"Clear Acrylic"**
3. The frames are higher than standard LEDs = By 60mm
4. The 60mm allows for **"YOUR"** Company Name to be added

Single Line - as shown on the "Black Frames"

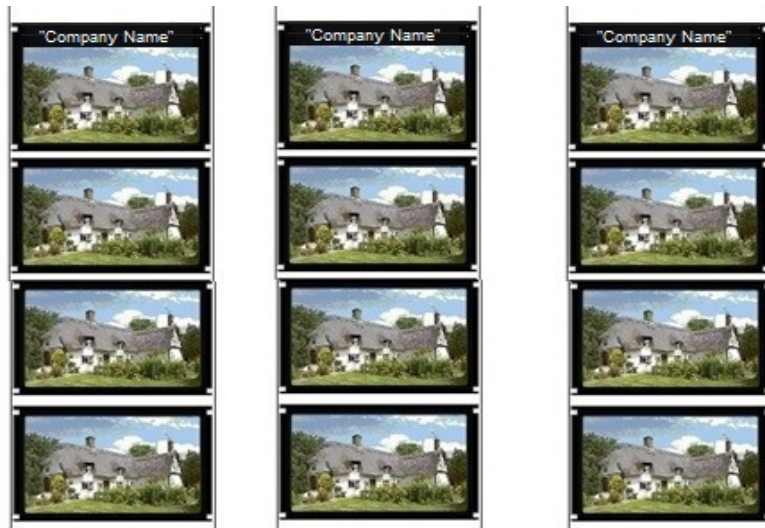

From the 60mm, etching is created up to 40mm

Double Line - as shown on the "Clear Acrylic"

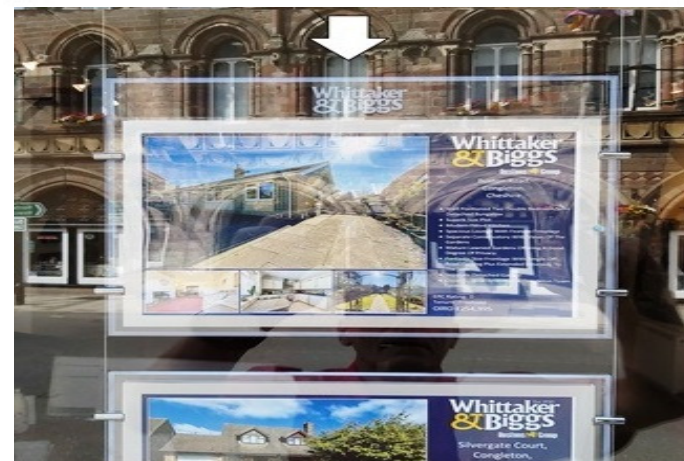

From the 60mm, etching is created up to 15mm (per line)

Below reveals 3x drops, with the 'Etched' LEDs on the top row

However: All of the shown LEDs could be 'Etched'

BLACK FRAMES

Order - with us supplying 1x Brand New LED + 'Etching Upon It'

*Example Image:

Etched LEDs:

Etched LEDs are normally added to the upper most of any drop
However: all LEDs can be supplied 'Etched'

Size of etched LED

As etching is to be added, a higher LED is required

Our higher LED has a 60mm height

You can add a 'Single Line of Etching (not exceeding) = 40mm

You can add a 'Double Line' of etching (each line not exceeding) = 15mm

Action by the client:

If wanting a single-line of text.....

1	Supply your company name (in full)
2	Tell us what 'Font' style is required
3	Example of this is - shown on the 'Black LED'

If wanting a double-line of text.....

1	Supply your company name + each word that goes on each line
2	Tell us what 'Font' style is required
3	Example of this is - shown on the 'Clear Acrylic'

Cost of LED

Action 1 - Order the etching from the ordering page

Action 2 - If you ordered 1, we will send 1

Action 3 - We will then, email you with the cost of the LED Pocket

Action 4 - We will send LED quotes in A4 Portrait & A3 Landscape

Action 5 - This quote will be in 2x Bacs Invoices

Action 6 - you decide which Bacs invoice is wanted, and pay by Bacs

Action 7 - Lead-time is normally 10x working days from full payment

Order - with us for 'Etching' only

*Example Image:

Etched LEDs:

Etched LEDs are normally added to the upper most of any drop
However: all LEDs can be supplied 'Etched'

Size of etched LED

This is based on your current LEDs...

Measure the top section of the LED, this is normally the clear part

Let's assume that your measurement is = 30mm

Then, you have 20mm for the 'Etching'

Action by the client:

Single Line of text

1	You maybe limited on available space, so, best do single line
2	Tell us what 'Font' style is required
3	Example of this is - shown on the 'Black LED'

Now he concern:

We will need your LED, so we can 'Etch' upon it

If you can lose a LED(s) for say 10x days, then this is no longer a problem

Steps for removing your LED

Step 1 - turn off the power to the LED area

Step 2 - armed with a Allen Key, remove the targeted LED from the cables

Step 3 - remember to place the grub screws back into the 4x grippers

Don't forget to do step 3, as this avoids losing the 4x grub screws

Step 4 - Parcel up the LED, ensuring it does not get damaged in transit

If not 100% how to pack, call us for advice - 01244 470903

Step 5 - Send parcel to = Estate Agent Supplies

Once received and etched, we will send the LED back to you, for re-hanging
